CAREER OBJECTIVE

Detail-driven Web Developer and Virtual Assistant skilled in creating responsive web solutions while supporting businesses with technical, administrative, and content-related tasks. Eager to leverage growing React expertise, strong communication skills, and efficient task management to contribute to innovative and results-oriented teams.

WORK EXPERIENCE

Oando Plc.

Web Developer | Virtual Assistant

- Developed and updated internal web pages using HTML, CSS, and JavaScript, improving usability and supporting digital project workflows.
- Provided virtual administrative support by managing schedules, preparing reports, and organizing documentation to enhance team efficiency.
- Collaborated with technical and business teams to test features, communicate deliverables, and coordinate tasks, contributing to smooth project execution.

Sarah S Accessories Maison

Web Developer

- Designed and developed a responsive e-commerce website to showcase product collections and improve customer browsing experience.
- Implemented frontend features such as product listing, search/filter components, and mobile-optimized layouts using modern web technologies.
- Collaborated with the business owner to update content, refine UI/UX, and ensure the site aligned with brand goals and customer needs.

Antahs Logic Solutions LTD.

Virtual Assistant

- Provided administrative and virtual support including documentation, scheduling, and correspondence, enabling smoother coordination across construction projects.
- Assisted in organizing project files, quotations, and client records, ensuring information accuracy and easy retrieval for operational needs.
- Supported communication between internal teams and external stakeholders by preparing reports, follow-ups, and status updates that improved workflow efficiency.
